III. Hazards Identification

HMIS Hazard Rating No. 2

PRIMARY ROUTE OF ENTRY: Inhalation, dermal, eyes, ingestion.

Symptoms of Exposure

Skin Contact: Frequent or prolonged contact may irritate and cause dermatitis, or aggravate an existing condition.

Eyes: Contact can cause mild irritation.

Inhalation: Vapors can be irritating to nose and mucous membranes. High exposures may result in dizziness, headache, anesthesia, drowsiness, unconsciousness and other central nervous system effects.

Ingestion: Intake can cause gastrointestinal irritation, nausea, vomiting, diarrhea and headache.

IV. First Aid Measures

Inhalation Remove victim from exposure. If difficulty with breathing, administer oxygen and seek medical assistance

Eyes Flush eyes with cold water for a minimum of 15 minutes, lifting lower and upper eye lids throughout. Seek immediate medical attention.

Skin Immediately remove contaminated clothing. Wash thoroughly with soap and water. If irritation persists, seek medical attention. Wash contaminated clothing before reuse.

Ingestion Do not induce vomiting, get immediate medical attention, if vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquids into lungs. Do not give anything by mouth to an unconscious person.

V. Fire Fighting Methods

HMIS Hazard Rating No. 1

Flash Point: >166°C (330°F) Method: Pensky Martin C.C.

General Hazard: Decomposition and combustion products may be toxic.

Auto-Ignition Temp.: Not available

Limits of Flammability LEL: Not Available UEL: Not Available

Extinguishing Media: For small fires, use water spray, foam, CO₂, or dry chemical. For large fires, use water spray, fog, or alcohol foam.

Special Fire & Unusual Hazards: Move containers from area if it can be done without risk. Cool fire-exposed containers with water from the side. As in any fire, wear NIOSH/MSHA approved, pressure demand self-contained breathing apparatus and full protective gear.

VI. Accidental Release Measures

Action To Take For Spills/ Leaks: Avoid contact with skin or eyes. Ventilate area, eliminate all sources of ignition. Wear appropriate protective gear, contain leak or spill, salvage, clean up residue with absorbent material.

Waste Disposal Method: Handle disposal of waste material in manner which complies with local, state, provincial and federal regulation. Landfill if solidified, or incineration at agency approved waste-disposal facilities.

VII. Handling And Storage

Average Shelf Life: Refer to Product Data Sheet

Special Instructions Store in cool, dry, well ventilated areas; keep away from flames or sources of sparks.

VIII. Exposure Controls / Personal Protection

Ventilation: Ventilation is recommended. Air movement must be designed to insure turnover at all locations in work area to avoid build up of heavy vapors.

Personal Protection Equipment: Do NOT wear contact lenses when working with this material. Use chemical goggles/safety glasses with side shields and impervious gloves. Wear clothing with long sleeves and pants. Wear respirator protection whenever airborne concentrations exceed TLV or TWA, use NIOSH/OSHA approved respirators equipped with an organic vapor cartridge. Confined spaces, room, or tanks are areas where concern for TLV's is especially important. Reference OSHA regulation CFR 29 1910.134 for recommended respiratory protection.
